

Basel 3 Pillar 3
NBS decree 16/2014
and Part Eight of Regulation (EU) No. 575/2013
Disclosure as of 30 September 2023

CONTENTS

1. INTRODUCTION	3
2. REQUIREMENTS ACCORDING TO THE NATIONAL BANK OF SLOVAKIA DECREE 16/2014 AS AMENDED.....	4
3. REQUIREMENTS UNDER PART EIGHT OF REGULATION (EU) NO 575/2013 (THE CRR)	20
4. DECLARATION OF THE MANAGER RESPONSIBLE FOR PREPARING THE COMPANY'S FINANCIAL REPORTS	21

1. Introduction

The purpose of the Third pillar of Basel 3, "market discipline", is to complement the minimum capital requirements (Pillar 1) and the supervisory review process (Pillar 2), by encouraging market discipline through the development of a set of disclosure requirements that will allow market participants to assess key pieces of information on the scope of application, regulatory capital, risk exposures, risk assessment processes, and therefore the capital adequacy of the institution. Such disclosures have particular relevance under the new framework introduced by Basel 3, where reliance on internal methodologies gives banks more discretion in assessing capital requirements.

The procedures to be adopted by Slovak banks or banking groups when disclosing information (referred to in brief as Pillar 3) to the public have been laid down by the National Bank of Slovakia Decree 16/2014 as amended. This document includes the disclosures set by the Regulation (EU) no. 575/2013 of the European Parliament and of the Council.

All amounts, unless otherwise indicated, are presented in thousands of euro ('€'). Negative values are presented in brackets.

Disclosures that do not contain any information because they do not apply to the VUB Group are not published. The VUB Group publishes this disclosure (Basel 3 Pillar 3) and subsequent updates on its Internet site at the address www.vub.sk.

2. Requirements according to the National Bank of Slovakia Decree 16/2014 as amended

Information about VUB Group

Všeobecná úverová banka, a. s. ('the Bank' or 'VUB') provides retail and commercial banking services. The Bank is domiciled in the Slovak Republic with its registered office at Mlynské nivy 1, 829 90 Bratislava 25 and has the identification number (IČO) 313 20 155.

The consolidated financial statements comprise the Bank and its subsidiaries (together referred to as 'the VUB Group' or 'the Group') and the Group's interest in associates and joint ventures (for more detailed description of companies included in the consolidation please refer to Chart of consolidated VUB Group).

over 5Y	97,579,270

Information on valuation method of assets in the cover pool

The Bank evaluates the properties that constitute collateral for residential mortgage loans in the cover pool in accordance with the internal regulation which is primarily based on the Decree of the National Bank of Slovakia No. 10/2016 (the „Decree“). When a residential mortgage loan is secured by a real estate subject to purchase, the value of the collateral is set as the lowest of the purchase price, the price determined by an appraiser and the price determined on the basis of an internal appraisal pursuant to the Decree. At the same time, all three values must always be available. When a residential mortgage loan is secured by a property under construction the value of the collateral is the lower of the estimated future general value and the contract price of the property. For other types of loan collateral (primarily refinancing loans and non-purpose housing loans), the value of collateral is determined on the basis of a price determined by an expert. The Bank periodically reassesses property values based on a statistical model in accordance with the Decree.

Securities used as liquid or additional assets in cover pool are valued at current market prices from Bloomberg, in the case of Slovak bonds the SK market maker model is used.

¹³ Act No. 483/2001, § 37 section 9j)

¹⁴ Act No. 483/2001, § 37 section 9j)

Information on important changes in the cover pool

During the 3. quarter of the year 2023 no covered bond issue was redeemed within the covered bond program and one new covered bond issue in the volume of EUR 500 million was issued.

Information on market risk including interest rate risk, currency risk, credit risk and liquidity risk¹⁵

Market risk

The investors in covered bonds are exposed to the risk of unfavorable development of market prices of the bonds in case of selling them before their maturity. The market risk grows with longer maturity and is affected mainly by interest rate moves or foreign exchange fluctuations, credit risk and liquidity risk. As the Bank does not manage the risk on the level of covered bond program, but on the level of banking book, there are no derivatives in the cover pool.

Interest rate risk

The Bank's interest rate risk exposure is at any time impacted due to changes in the overall level of interest rates, changes in the relationships between the main market rates, changes in the slope and shape of the yield curve, changes in the liquidity of the key financial markets or in the volatility of market rates in different currencies, consolidation of exposures on the basis of the different correlations between currencies and stress on behavioral models. Despite the fact that the Bank applies policies for hedging and mitigating interest rate risk, interest rates are highly sensitive to many factors which cannot be controlled by the Bank and interest rate fluctuations may negatively affect the Bank's net interest income.

Structure of assets in cover pool by interest rate type

Type of assets in the cover pool	Assets with fixed interest rate (EUR)	Assets with floating interest rate (EUR)
Base assets (nominal value including accrued interest)	5,134,143,338	-
Additional assets (fair value)	-	-
Derivates (fair value)	-	-
Liquid Assets (fair value)	779,504,959	-

Currency risk

The Bank pays principal and interest on the covered bonds in the issue currency. If an investor's financial activities are denominated principally in a currency other than the issue currency, it can present certain risks relating to currency conversions, risk that exchange rates may significantly change and the risk that authorities with jurisdiction over the investor's currency may impose or modify exchange controls. As a result, investors may receive less interest or principal than expected. As at the date of this document, all covered bonds issued and outstanding by the Bank were denominated in euro.

Structure of assets in cover pool by currency

Type of assets in the cover pool	Volume of assets by currency type		
	EUR	CZK	Other
Base assets (nominal value including accrued interest)	5,134,143,338	-	-
Additional assets (fair value)	-	-	-
Derivates (fair value)	-	-	-
Liquid Assets (fair value)	-	-	-

Credit risk

The economic and financial activities of the Bank depend heavily on the degree of credit reliability of its clients and their ability to repay their contractual obligations. A negative development on the market may endanger the ability of its clients to fulfil their obligations, what could have negative effects on the Bank and may potentially represent a risk of non-performance of obligations by the Bank.

¹⁵ Act No. 483/2001, § 37 section 9m)

Residual LTV distribution of mortgage loans

LTV range	Share of Mortgage Loans
<=40%	13.06%
(40, 50%>	11.39%
(50, 60%>	17.35%
(60, 70%>	27.21%
(70, 80%>	30.99%

Liquidity risk

Liquidity risk of the Bank may be negatively affected by several factors such as a drawdown of unused committed credit lines of customers or increase of delinquency on the customer loan. The liquidity of the Bank can also be endangered by slowdown of the global macroeconomic cycle, when immediate withdrawal of corporate funds as well as retail deposits due to economic crisis, increase of unemployment rate or subsequently due to increase of reputational risk, may lead to decreasing of Banks's deposit base. In line with Act No 483/2001 on banks and amending certain laws („Act on Banks“),, Section 74 the Bank holds all the time in the cover pool the liquidity buffer covering net liquidity outflows from its covered bond programme accruing on a rolling daily basis for 180 days.

Information on the possible extension of the maturity period of the covered bonds in accordance with Section 82(3) to (13) Act on Banks¹⁶

The maturity period of the covered bond' s principal may be in line with Act on Banks, Section 85 (3) to (13), extended by a maximum of 24 months, with other issue conditions, including the method of determining yields, applying also during the extended maturity period of the covered bond issue. Extensions of the maturity periods of covered bond issues must not result in a change in the order of maturities of covered bond issues from the original order. The extension of maturity can only apply to banks that are in receivership or under an adjudication of bankruptcy, or if a proposal to commence resolution proceedings against a bank was submitted.

Information on the levels of required and available coverage¹⁷

Coverage type	Coverage volume (EUR)
Required coverage	4,873,599,456
Available coverage	5,913,648,297

Information on the percentage of loans where a default is considered to have occurred and in any case where the loans are more than 90 days past due¹⁸

As of the date of this document, there were no mortgage loans in the cover pool with more than 90 days past due or for which the borrower was considered delinquent.
